

ORGANIC TRACE MINERALS

- ◆ Improves Reproductive Performance.
- ◆ Strengthens immune competence.
- ◆ Modulates inflammatory responses in mammary tissues

ORGANIC TRACE MINERALS

Description

Organic Trace Mineral is a blend of Debon chelated trace minerals and organic selenium designed to meet mineral requirement of lactating dairy cows.

Composition

Zinc Amino Acid complex, Manganese amino acid complex, Copper amino acid complex, Ferrous amino acid complex, Calcium iodate, Sodium selenite, Selenium yeast and Cobalt sulfate

Technical Specifications

Item	Content (g/kg)
Zinc	62.5
Manganese	40
Copper	10
Cobalt	0.10
Selenium	0.25
Ferrous	10
Iodine	0.60

Benefits

- Improves the functionality of numerous structural proteins, enzymes and cellular proteins.
- Improves reproductive performance through endocrine modulation
- Organic Zinc improves reproductive performance through endocrine modulation.
- Organic Zinc promotes keratinization processes in hoof tissue, improving structural integrity and hardness for enhanced hoof health.
- Organic Manganese enhances antioxidant defense mechanisms via superoxide dismutase activity.
- Organic Manganese facilitates osteoblastic activity for improved bone mineralization.
- Organic Copper stimulates growth hormones secretion pathways.
- Organic Copper modulates inflammatory response in mammary tissues.

Dose

Dairy Cow : 5-7 grams/head/day

Packing 25kg

HEAD OFFICE
